

Assembler

VJ X-Ray LLC is the global leader in developing and manufacturing integrated x-ray sources and high voltage generators. Our mission is to be uncompromising in pushing the boundaries of component design and manufacturing for every OEM partner.

This key position is responsible for assembling electronic components to specifications while meeting production schedules, performance and quality standards. This position requires reliability, task flexibility and the ability to follow instructions.

Job Description:

- Utilize bill of material, written or verbal instructions to assemble or re-work x-ray source components and high voltage generators
- Work from schematics or assembly drawings to modify subassemblies, as required
- Performs miscellaneous duties that include assisting other areas of production and quality assurance
- Prepare completed products for shipment
- Safety Sensitive Position

Essential Skills:

- High School Diploma
- General understanding of electronic assembly procedures
- Understanding of ESD practices
- Ability to read and work from electrical prints
- Proficiency in circuit boards and soldering
- Familiarity with assembly tools and equipment
- Minimum two (2) years manufacturing or assembly experience
- Ability to work as part of a team
- Must be authorized to work in the U.S.
- Will need to successfully pass a personal background check and drug screenings

Non-Essential Skills:

- Minimum two (2) years of full-time experience with proven reliability, preferably in a technical, manufacturing or research and development environment
- Experience in safe work environments and maintaining compliance with state and federal regulations
- Prior experience soldering through-hole and SMT components
- Ability to use a multi-meter to test and troubleshoot AC/DC circuits

Physical & Mental Demands:

- Regularly required to sit, walk, bend, stoop and stand within an industrial environment
- Will need to repeatedly use hands & fingers to operate basic office equipment and operate hand and power tools standard to a production environment
- Responsibilities could require lifting, moving, staging, and placing of materials up to 50 pounds alone and heavier with assistance
- Vision abilities required for this job include close vision, distance vision, color vision, peripheral vision, depth perception and ability to adjust focus
- Must be able to fulfill essential job functions in a consistent state of alertness and safe manner.
- On a regular basis, will be required to:
 - use written and oral communication skills
 - read and interpret data, information and documents
 - be creative, make judgements, use reasoning and make decisions
 - observe and interpret situations
 - learn and apply new information or skills
 - perform detailed work on multiple, concurrent tasks
 - work under intensive deadlines with frequent interruptions
 - interact with internal and external customers holding positions from a wide array of disciplines and organizational hierarchy levels
- May need to communicate and effectively manage dissatisfied or frustrated customers and/or interface with difficult/demanding individuals

This job description is not all inclusive and is subject to change at any time. VJ X-Ray LLC provides equal employment opportunity to all individuals regardless of their race, color, creed, religion, gender, age, sexual orientation, national origin, disability, veteran status, or any other characteristic protected by state, federal, or local law. The company takes affirmative action to ensure that applicants and employees are treated during the application process and post hiring employment without regard to any of these characteristics. Discrimination of any type is not tolerated.
